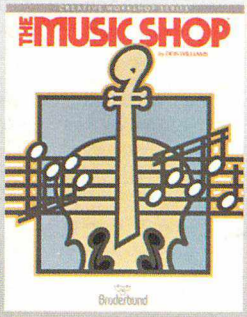
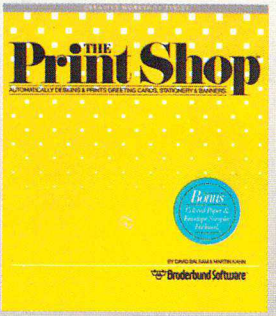
BRØDERBUND/SYNAPSE

SOFTWARE FOR COMMODORE AND ATARI COMPUTERS

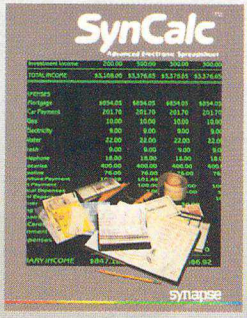
At last! A music program that really performs.



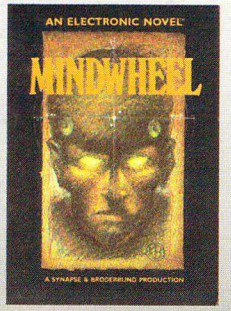
Print your own greeting cards and banners!



Handle family budgeting and financial projections.



Control the outcome of a riveting novel.



Brøderbund and Synapse have joined forces, and for a very good reason. We intend to bring you an even broader range of quality software for your Commodore 64® or Atari® 400/800/XL/XE personal computer.

Now you can uncover your hidden creativity as you design and print your own personalized cards, stationery, signs and banners with *THE PRINT SHOP* (pages 4-5).

If running your household or small business eats up your time and leaves you knee-deep in paper work, take heart. Programs from our full productivity line will make writing, filing, calculating, charting, telecommunications and even appointment management, simpler and easier (pages 8-9, 16-19).

Make yourself the central character in an *Electronic Novel* (pages 20-21) as you help weave a plot of adventure and fantasy. With *RELAX* you can even turn your computer into a sophisticated biofeedback machine that helps you conquer stress (pages 22-23).

All of the titles in this catalog can be found at the software stores in your area. But if you can't find a program you want, just use the enclosed order form, or you may place your credit card order by phone: (415) 479-1185, 8:30 a.m. to 5:00 p.m. Pacific Time.

Our Software Representatives are ready to take your order, and will process it within 48 hours.

If the order form is missing from this catalog, please write on a piece of paper the names of the programs you want, their item numbers, the quantity you want, and the total price of the programs you have selected. Please add $3.00 for postage and handling. California residents add 6% sales tax. Make your check payable to ***Software-Direct,*** *and mail it along with your order to* ***Software-Direct, P.O. AT LAST! A MUSIC PROGRAM

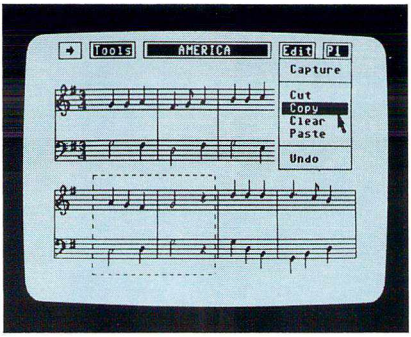
THE MUSIC SHOP™
by Don Williams

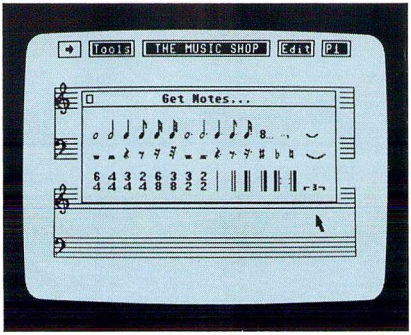
With *THE MUSIC SHOP* the musician in you can compose, edit, save, print and play music using standard musical notation all in one comprehensive product. Or, if you prefer, play and rearrange any of dozens of pieces already included.

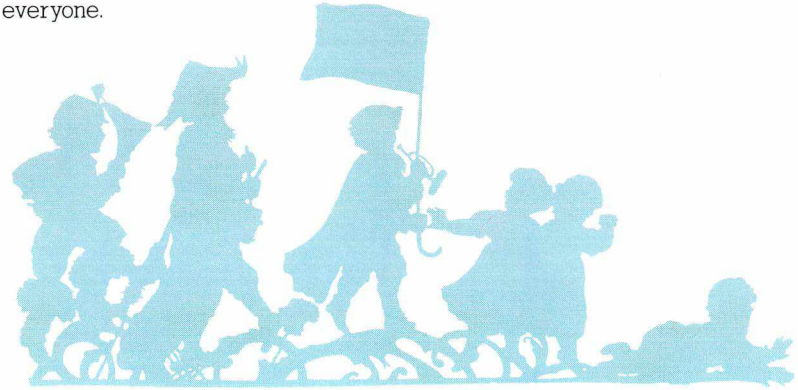
Every detail in *THE MUSIC SHOP* is sharp—even the flats! Music is displayed in a crisp, clear page-by-page format. No hard-to-read scrolling. And the notes are just as easy to write with the Macintosh™-style user interface.

You can compose a song in minutes, then move blocks of your music around, or erase and start again. When you're satisfied, save your creation or print it in standard sheet music format.

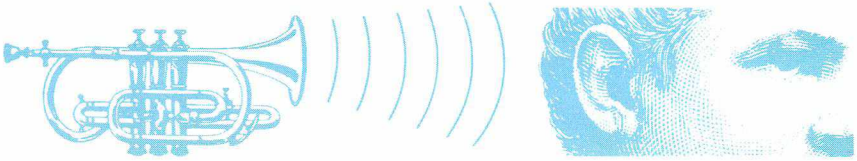
Now anyone can become a musician—regardless of past music or computer experience. *THE MUSIC SHOP* brings the language of music to everyone.







THAT REALLY PERFORMS.



- Broad musical capabilities: whole to 32nd notes, dotted notes, rests; 8 time signatures; triplets, ties, and octave-up features; first and second endings, and more.
- Versatile—double- and single-staff modes; treble or bass clefs; options to change key/time signatures and sound/tempo in mid-composition.
- Ease-of-use and speed. Pick up a note only once, then place it as many times as you want.
- Full control of sound. Easy selection of pre-set instrument sounds.
- Displays music one page at a time—no scrolling.
- Prints standard format sheet music. No need to cut and paste.
- Includes assortment of finished music you can play instantly or customize.
- 44-page illustrated manual includes the basics of music theory.

The more experience you have with the Bank Street Writer, the more at ease you will be with it; the more you use it, the more uses you will find for it. With the Writer you can write anything you would normally use a typewriter for, from the simplest note to the most complicated report. The Bank Street Writer is faster than a typewriter and the results are always neat, with no gaps, erasures, or inserts due to errors.
The Bank Street Writer is very easy to use. If you have never used a word processing program before, this manual will tell you all you need to know to use the Writer. If you have

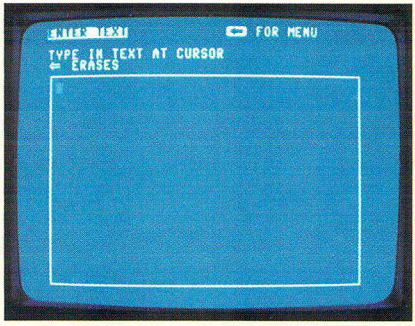
The Bank Street College of Education, based in New York City, is known as a national leader in the educational applications of micro-computers. Originally founded in 1916, the College has a long tradition of developing high quality educational materials.

BANK STREET WRITER™
by Intentional Educations, Inc., Franklin E. Smith, and Bank Street College of Education

Brøderbund's *BANK STREET WRITER* has become the most acclaimed and widely-used word processor for the home, and for some very good reasons.

Here, finally, is a word processor that lives up to its promise to be easy-to-use. Most people (including children) can begin using it in a matter of minutes, yet the *BANK STREET WRITER* puts you in full control of the powerful features most wanted in a sophisticated word processing program. And all at a price that makes it as easy to buy as it is to use.

It's almost as simple as sitting down with a blank sheet of paper—just load the program and start writing. That's all there is to it.



LIFY! SIMPLIFY!

MORE SIMPLE.
There's no need to memorize complex computer codes, keys or symbols with the *BANK STREET WRITER*. Plain English, on-screen prompts and easy-to-use menus guide you along so you can concentrate on WHAT you're writing instead of HOW.

MORE POWERFUL.
The *BANK STREET WRITER* offers some very impressive features:

- Add, move, insert or delete single words, lines, or entire blocks of text.
- Center titles or indent easily.
- Automatic word wrap.
- Search and replace.
- Easy text formatting for printing.
- Page numbering at the top or bottom.
- Save text on disk or print out.

MORE AFFORDABLE.
Best of all, *BANK STREET WRITER*'s low price makes it the best word processing value around. And it comes with everything you need, including complete documentation, on-disk tutorial, and a free back-up disk.

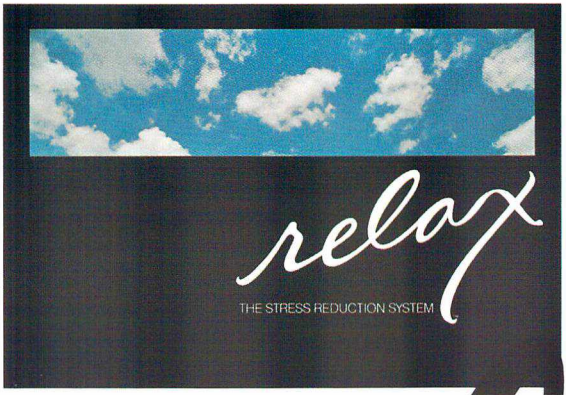
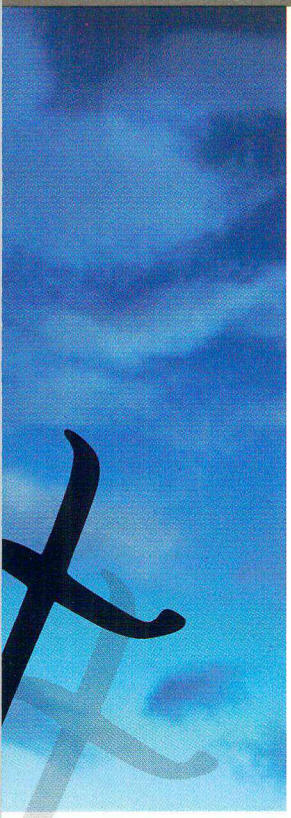
Introducing a revolutionary hardware/software product ... designed to turn your computer into a sophisticated system for monitoring stress and improving your health and fitness.





RELAX™ Stress Reduction System

Stress is such a normal part of our daily lives that we take its effects for granted. We almost forget what it feels like *not* to be stressed until we go on vacation. Now you can experience that same deep relaxation at home every day... quickly, easily, reliably.

Your computer screen swirls with a kaleidoscope of soothing patterns and colors as the day's tensions dissolve. A gentle voice eases you ever deeper into relaxation. You're on your way to conquering stress ... and on your way to better health and well-being.

A COMPLETE SYSTEM

The *RELAX* system consists of a unique sensor headband and control unit that monitors and displays your changing stress levels; a program disk to chart responses and measure your progress; a 200-page comprehensive guide to stress reduction; and a 30-minute audio cassette to guide you into deep relaxation.

DEVELOPED BY PSYCHOLOGISTS

RELAX was developed by a team of clinical psychologists and software engineers. It combines proven techniques of biofeedback, autogenic training and progressive relaxation.

Both Atari and Commodore 64 versions are included in one universal unit.

UNI-6900 **$139.95**

OPTIONAL BODY SENSORS

by Mark Bigelow and Joe Vierra

Quasimodo gets his kicks hanging out in the castle belfry. He knows the hiding place of the crown jewels, but he's too busy stoning the soldiers and dodging the deadly bats. Only you can help Quasi recover the stolen jewels.

Exciting 3-D action makes *WARRIORS OF ZYPAR* one of the most challenging two-player games ever. Set in a futuristic arena, you try to knock your opponent off his aero disk. Combines the adventure of Roman gladiators with the fast action of soccer and handball.

▶ Both games require joystick.

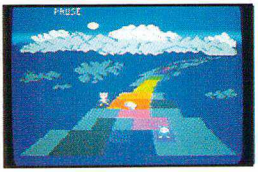
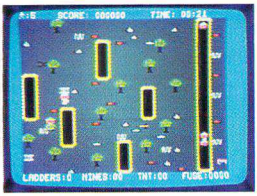
RAINBOW WALKER™/DOUGHBOY™



Rainbow Walker screen



Doughboy screen

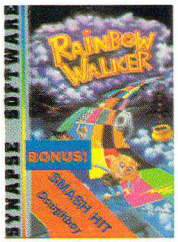
by Steve Coleman and Ken Coates

In *RAINBOW WALKER,* try to outsmart the devil and avoid lightning bolts and tornadoes as you create a brilliant rainbow to reach the pot of gold. You'll need razor-sharp reflexes, delicate joystick precision and a knack for strategy.

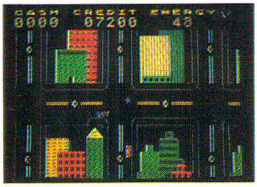
DOUGHBOY puts you in command of a heavily-armed squad on a dangerous mission—to rescue the President! You just might succeed if you can find the hidden supplies and keys, blow up enemy installations, and avoid the deadly missiles and tanks. 1 or 2 players.

▶ Both games require joystick.

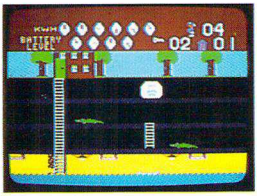
COMDSK-3501 **$24.95**



NEW YORK CITY™/ELECTRICIAN™



New York City screen



Electrician screen

by Russ Segal and David Bunch

You can visit the Big Apple without leaving home, and you'll soon discover that all those stories are true! No sooner do you park your car than it's stolen, and that's only the beginning. Metropolitan madness will drive you crazy—especially if you run out of money!

Get ready for a full day's work! In *ELECTRICIAN* you have to wire eight buildings before going home, while avoiding wire-eating bats, worms, mice, spiders and some very vicious alligators.

▶ Both games require joystick.

HAVE YOU HEARD ABOUT THE PRINT SHOP?

Now with only a few keystrokes you can write, design and print your own stationery, greeting cards, flyers, even thirty-foot long banners! No knowledge of computer graphics is necessary.

Don't miss *THE PRINT SHOP* on page 4.

EVERYTHING YOU NEED IS IN THE PROGRAM:

Typestyles, border designs, background patterns and a wide range of pictures and symbols to choose from will put your ideas in print!

Just mix and match elements from the menu and use them like building blocks as you compose your masterpiece. *THE PRINT SHOP* will guide you every step of the way and print out your finished piece automatically.

There's an illustrated reference manual full of examples to get you started, plus a starter supply of colorful pinfeed paper and matching envelopes.

Start putting your ideas into print. Every one will be one-of-a-kind!
